PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8822

SESSION NUMBER: 002

DATE OF SESSION: 5 Jan 89

DATE OF REPORT: 9 Jan 89

START: 1430

END: 1500

METHODOLOGY: CRV

VIEWER IDENTIFIER: 011

1. (S/NF/SK) MISSION: Continue describing subject facility, exploring specifically nature/purpose and primary activity(ies) of complex.
2. (S/NF/SK) VIEWER TASKING: Continuation in Stage IV from previous session.
3. (S/NF/SK) COMMENTS: No declared PIs. Site accessed and certain objects and functions described.
4. (S/NF/SK) EVALUATION:

HANDLE VIA SKEET CHANNELS ONLY

~~SECRET~~ / NOFORN

CLASSIFIED BYH: DIA (DT)
DECLASSIFY: OADR

SESSION SUMMARY

SESSION: 05 JAN 89

VIEWER: *011

START: 1430

STOP: 1500

THE TASK TODAY IS TO EXPLORE THE NATURE/PURPOSE OF THE COMPLEX THAT WAS DESCRIBED IN THE LAST SESSION.

CONCEPTS ASSOCIATED WITH THIS COMPLEX ARE PRODUCTION, FABRICATION, PRECISION MACHINING AND FINAL ASSEMBLY TO PRODUCE AN END PRODUCT. WHILE TRYING TO DEFINE THE PRODUCT, AN OBJECT ASSOCIATED WITH IT PRESENTED ITSELF. THIS OBJECT LOOKS LIKE A LARGE, SPOKED GEAR (SEE SKETCH, PAGE 1). THE END PRODUCT ITSELF EVOKES THE VISION OF A FLAMING BLAST EMITING FROM A NOZZLE-LIKE DEVICE WHICH REMINDS ME OF A ROCKET MOTOR (SEE SKETCH, PAGE 3).

THE END PRODUCT IS ROUND AND GENERALLY CYLINDRICAL IN SHAPE, BUT THIS IS SOMEWHAT MISLEADING, BECAUSE THE OUTER SURFACE IS COMPOSED OF MANY FLAT ANGLES, MUCH LIKE A MOSAIC. THIS OBJECT IS STRUCTURALLY METALLIC, WITH A THIN SKIN, OR OUTER SHELL OF A COMPOSITE OR SOME OTHER EXOTIC MATERIAL

4 1/2 the reason for the surfaces to be flat and geometric are
that this material is not malleable or machinable - it must
be mosaiced to conform to a specific shape. for - much like
the tiles on the space shuttle.
